Examiner, Art Unit 1793

Status of Application

1. Acknowledgement is made of the amendments filed 03/11/2010. Upon entering the amendments, the claims 7-10 are cancelled. Claims 1-6 and 11-17 are pending and presented for examination.

Rejections Withdrawn

2. The cancellation of instant claims 7-10 renders moot the previously issued grounds of rejection for these claims, and these rejections are thus withdrawn.

Response to Arguments

3. In the previous office action claims 1-6 and 11-17 were indicated as allowable subject matter and claims 7-10 were rejected over Oyama et al (EP 1193226). Applicant's disagreement with the previously issued grounds of rejection is acknowledged; however, as the claims are cancelled, the objections are moot. All of the claims remaining in the application are allowed upon the cancellation of the previously rejected claims.

Allowable Subject Matter

4. Claims 1-6 and 11-17 are allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance: The prior art does not teach or render obvious a glass batch based on the soda-lime-silica system that comprises 0.01-1 wt% molybdenum disulfide and 0.01-7 wt% strontium sulfide or a process for manufacturing a tube or blank comprising a step of adding 0.01-1 wt%

molybdenum disulfide and 0.01-7 wt% strontium sulfide to the batch composition of the claims.

The most relevant prior art references found are Oyama et al (EP 1193226) and Ulenaers et al (US 2002/0117950). The difference from instant claims is that both prior art documents teach molybdenum and strontium-containing glasses, but teach that these two elements are present in the glass batches as the oxides of the metals rather than as the sulfides in amounts falling within the claimed ranges. For the above, reasons, the subject matter of the amended instant claims is neither taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to NOAH S. WIESE whose telephone number is (571)270-3596. The examiner can normally be reached on Monday-Friday, 7:30am-5:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
